

# "With Today's Breakthroughs, You No Longer Have To Live With Type 2 Diabetes, Neuropathy or Obesity!"

Michelle Manning, age 54, first presented to our office in December 2015 and she was on 13 medications a day.

She presented with numerous conditions, including; Type 2 Diabetes (she had for 4 years and was taking 7 oral pills a day), Neuropathy (she suffered for 2 years in her feet), High-blood-pressure, Hypo-thyroid, Fatigue, Digestive Issues and Obesity (she was 100lbs over-weight).

**Q: Michelle, what was the main problem you presented to Dr. Miller for?**

**A:** "I had Type 2 Diabetes for 4 years. I was about to go on insulin as my A1c was over 8 and continued to go up, getting worse even though I was taking 7 diabetic pills every day."

**Q: What did Dr. Miller say that gave you hope he could help you even though you were seeing other medical specialist for over 4 years?**

**A:** "Dr. Miller really took the time to visit with me about my entire health history. He made it very clear that Type 2 Diabetes was being caused by something. My other doctors did not take the time to figure out what was causing my diabetes, they just put me on medications. I knew the medications were just covering and masking symptoms. Dr. Miller made it clear, something was not working correctly in my body and as a result of this underlying deeper problem, my body was not able to control and regulate its' blood sugar like it had done for 50 years. This made complete sense to me."

**Q: How did Dr. Miller find out what was not working correctly inside you that was causing your Type 2 Diabetes?**

**A:** "Dr. Miller clearly and carefully explained the seven systems in the body that are responsible for regulating and controlling blood sugar. He showed me a sample of the very comprehensive blood lab panel that Lab Corp would run that would uncover and reveal what was causing my Type 2 Diabetes.

Dr. Miller then does a 'Functional Medicine computer assessment' on the labs, and this is extremely revealing in terms of what was actually the real deeper problems, causing my diabetes, as well as my hypertension, fatigue, neuropathy and my obesity. I was just amazed!"

**Q: Once Dr. Miller had obtained the lab reports, what did he then do?**

**A:** "Dr. Miller really takes the time to go over everything in just plain language. He doesn't use all the fancy words like the other doctors. He went step by step through all of my lab findings and showed me what they meant, what was not working correctly and how this was causing all my poor health issues I had been dealing with for years. I was so encouraged that a doctor had finally spent the time to do this and then explain all of this to me."

**Q: Yes, this does sound amazing, and what more of us need. Then what did Dr. Miller recommend based on all this information he now presented to you?**

**A:** "He took the time to show me exactly what he was recommending in terms of eliminating my Type 2 Diabetes, Neuropathy and losing weight. I told him I wanted to lose 100 pounds, and he said great!"

He made it clear that he does not use any drugs and I was so glad to hear that. I was hoping to get off of

some of the 13 pills a day I was taking. I told him I really hated taking all those drugs and was hoping I could get off of some. He said nearly all of the clients he accepts usually, either significantly reduce or completely eliminated their need for medications. I was thrilled to hear that."

**Q: What are the results of your treatment from Dr. Miller?**

**A:** "My results are amazing! My 4 month follow up labs proved I no longer had Type 2 Diabetes, after 4 years and 7 pills a day, and my Neuropathy is gone! I have now lost

63 pounds, I no longer have fatigue, my energy is normal, I no longer have hypertension and my digestive system is working great. And, I am no longer taking any of the 13 pills a day I was taking when I came to Dr. Miller. Dr. Miller's program of care is just amazing and he really takes his time and teaches you how to continue to get great results and maintain the improvements as you continue to get more and more improvements. I highly recommend Dr. Miller and his very unique approach that really fixes the causes of so many conditions!"
